

2nd Grade Math Learning Targets

Number and Operation:

I can read numbers to 1000.

I can write numbers to 1000.

I can show names for numbers up to 1000.

I can use place value to write numbers up to 1000.

I can add 10 to a given number up to 1000.

I can add 100 to a given number up to 1000.

I can subtract 10 from a given number from 1000.

I can subtract 100 from a three-digit number.

I can round numbers to the nearest 10 more.

I can round numbers to the nearest 100 more.

I can round numbers to the nearest 10 less.

I can round numbers to the nearest 100 less.

I can order numbers to 1000.

I can compare numbers to 1000 using symbols ($<$ $>$ $=$).

I know my basic addition facts.

I know my basic subtraction facts.

I can estimate sums up to 100.

I can estimate differences up to 100.

I can add two-digit numbers in my head.

I can subtract two-digit numbers in my head.

I can solve addition problems up to sums of 99.

I can solve subtraction problems from 99.

I can add to learn things on tables.

I can add to learn things on graphs, charts, and tables.

I can subtract to learn things on graphs, charts, and tables.

Algebra:

I can make and solve number patterns up to 1000.

I can find missing values in addition problems.

I can find missing values in subtraction problems.

I can use addition strategies (doubles, near doubles, adding in any order) to solve problems.

I can use subtraction (using doubles, related addition facts, and finding the missing part) strategies to solve problems.

Geometry & Measurement:

I can name two- and three- dimensional shapes.

I can compare two- and three- dimensional shapes.

I can name number of faces, edges, and vertices.

I can measure using non-standard units of length.

I can measure to the nearest inch.

I can measure to the nearest centimeter.

I can tell time to the quarter hour.

I can tell the difference between a.m. and p.m.

I can name a penny, nickel, dime and quarter.

I can tell the value of a penny, nickel, dime and quarter.

I can find the value of a penny, nickel, dime and quarter.

I can add a group of coins including a pennies, nickels, dimes and quarter.

I can find coins to represent a given value
